THE AUSTRALIAN SCIENCE TEACHERS JOURNAL

Index to Volume 35, (1,2,3 and 4), 1989
(Issues 112, 113, 114, 115)

FEATURE ARTICLES	Issue	Page
A school-based approach to setting and evaluating science curriculum objectives: SOLO and school science. *K.F Collis & J B Biggs*	115	15
Australian geosciences into the 1990s. *R M Carter*	113	6
Creating a gender-inclusive science education. *G Hilderbrand*	114	7
CSIRO women in science project. *R Kingsland*	114	45
Directed reading. *D Heffernan*	112	27
Expanding the scientific community in schools: A computer conference in science education. *I Robottom & R Muhlebach*	112	39
Female science enrolment trends in Australian senior secondary schools. *J R deLaeter, J Malone & J Dekkers*	114	23
Gender and science education: Interests and career choices. *S Sjøberg*	114	34
Gender-inclusive resources in science and technology. *L J Rennie & I Mottier*	114	17
Geology curriculum development. *D E Klindworth*	113	30
Producing science curriculum materials: Some reflections concerning readability and the development of understanding. *R K Lowe*	112	18
Reducing teachers to technicians: The role of the Biological Sciences Curriculum Study. *R McTaggart*	113	35
Self-organisation: astronomical, biological and geological structures. *R Schibeci*	115	11
Teaching science for humankind in a sustainable biosphere. *R Cross*	114	38
The role of radiochemistry in the production and application of radionuclides. *A M Chetcuti*	113	30
The role of science in understanding and managing the greenhouse effect. *A N Andersen*	115	6
Using practical tests to assess laboratory work in chemistry. *P Garnett & M O'Loughlin*	115	27
Using those tangled webs in science (the hoaxes, pranksters, diddles and cheats) in teaching our scientific methods. *A G Wheeler*	112	9
Why geology is not discussed in the community. *R Stutchbury*	113	15
Work-required assessment in science. A case study: Ingle Farm High School. *R Hattam & M Renton*	112	31

GENDER-INCLUSIVE ACTIVITIES		
A history for the future - Women in science and technology in Australia. *J Payget*	114	95
Advertisements as science texts: A unit for teenage girls. *A Villiers*	114	61
Bringing science to the community: The WISENET science shop. *J Rainforth*	114	88
Creative writing ideas. *McClintock Collective*	114	72
Creativity and girls in science. *S. Stocklmayer*	114	77
DEET science resource book for lower school science. *R. Schibeci*	114	87
Energiser: A role-play. *R Speedy*	114	73
Engaging science: A CDC science, technology and society project produced in association with ASTA. *E Dangerfield*	114	50
Engineering as a career option for science students. *C Newhouse*	114	90

Work-required assessment in science. A case study: Ingle Farm High School. *R Hattam & M Renton*	112	31

GENDER-INCLUSIVE ACTIVITIES		
A history for the future - Women in science and technology in Australia. *J Payget*	114	95
Advertisements as science texts: A unit for teenage girls. *A Villiers*	114	61
Bringing science to the community: The WISENET science shop. *J Rainforth*	114	88
Creative writing ideas. *McClintock Collective*	114	72
Creativity and girls in science. *S. Stocklmayer*	114	77
DEET science resource book for lower school science. *R. Schibeci*	114	87
Energiser: A role-play. *R Speedy*	114	73
Engaging science: A CDC science, technology and society project produced in association with ASTA. *E Dangerfield*	114	50
Engineering as a career option for science students. *C Newhouse*	114	90

Fun with physics. *M Leggett, G Lawson & E Miller*	114	76
Gender equity in Tasmanian schools. *J Johnson*	114	92
Gender-inclusive activities in Queensland. *L Apelt*	114	98
Gender issues in science in South Australia. *T Pike*	114	80
Girls in education in NSW. *M Bates*	114	81
Girls in education in WA. *K Lymon*	114	82
Linking science and careers with COMETS. *K Mullins Gunst & M Simonelli*	114	83
Microstat satellite receiver for the Apple IIe. *R Rennie*	114	74
National key centre for teaching and research in school science and mathematics (especially for women). *B Fraser*	114	86
Northern Territory gender-inclusive curriculum project - maths and science, Years 4 - 7. *B Westblade & J Miller-Kennett*	114	93
PHRED: Physics for real education. *A Beruldsen*	114	56
Primary and early childhood science and technology education project. *V Kirkwood*	114	79
Support for women engineering students. *R Meikle*	114	87
Technical skills for girls. *U Groves*	114	85
The atoms party. *L James*	114	72
The education of girls in mathematics and science program. *R Lendon*	114	78
The liver transplant committee. *G Hildebrand*	114	70
What's been happening in Victoria for girls' science education. *D Peck & B Dick*	114	65

JUNIOR SCIENCE NOTES

Adaptations for poor literacy levels. *D Potter*	112	49
Casting some calculations on candles. *M Webb*	112	52
Inferring the shape of an electric circuit. *M A Pearce*	112	50
Inform, verify and practise: a cautionary tale. *D Hill*	115	38
Mining and the environment. *K Graf*	115	40
Music from the didjeridu. *J Smith & P Ellerton*	113	46
The determination of the density of cork. *A McCheyne*	115	37
The line game: A novel approach to revision. *C Donaher*	113	47
The oxygen content of the air. *R W Stanhope*	113	50
The two candles riddle. *A Davies*	112	52

BIOLOGY NOTES

Assessing biology or human biology students' mastery of science process skills. *M W Hackling, K Patterson & C Pidgeon*	112	56
Assessing biology/human biology students' mastery of apparatus skills. *M W Hackling, K Patterson & Pidgeon*	113	56
At home in the arid zone. *J Sheehan*	113	52
At home in the arid zone. *J Sheehan*	115	46
Demonstrating protein structure. *A Newman*	115	43
Examining fungi using the monocular microscope. *J Merchant*	115	42
Looking at stomates and other epidermal features in grasses. *A W Scott*	112	54

CHEMISTRY NOTES

A spectacular demonstration involving the reaction between NO and O_2. *G Hargreaves*	113	61
Classroom demonstrations of temporal and spatial chemical oscillators. *R Schibeci*	115	50
Elementary profiles VI. *R A Schibeci*	113	62
Fact and fiction about the structure of molecules and matter. *J F Ogilvie*	115	52

Ghostbuster slime: An entertaining activity for the teaching of H-bonding and polymers. *M Bevan & C Commons* 112 61
Photochemistry in school science. *J Gipps* 112 59
Photochemistry in school science. *J Gipps* 113 59
The iodine clock reaction: A computer-based open day experiment. *B Salter-Duke* 113 66
The periodic jigsaw. *P J Lohmeyer* 112 62
What is the hazard? *G Griffiths* 113 64

EARTH SCIENCE NOTES

'Crystals' in the market place. *L Rennie* 115 57
Geology in city buildings. *Education Department of Tasmania* 115 60
Model geyser. *L Stephens* 113 70
Plotting a geological cross-section from drilling data. *R Nazer* 115 55
Specific gravity of minerals. *N E Austen* 112 64
Using a cemetery as a field resource. *Education Department of Tasmania* 113 69

PHYSICS NOTES

A buoyancy method of determining density. *A I McCheyne* 112 70
A physics toy - 87Q9. *N E Austen* 113 80
An attractive method for measuring 'g'. *D Stevenson* 115 66
Computer interfacing in physics. *R Walding* 115 63
Curtin Applied Physics superconductor kit. *E Miller & R Clifton* 113 72
Homemade electricity/electronics kits. *T Hurst* 113 75
Magnetic fields. *N E Austen* 112 73
Poisson's ratio of a metallic wire. *K Sundaralingam* 113 74
Revisiting a.c. - d.c. *N E Austen* 115 67
Running your own astronomy night. *T Walkington* 112 66
The ping-pong ball model of electrical conduction. *A R Pepper* 112 71
Total internal relection of waves. *A R Pepper* 112 67

RESEARCH

Enhancing the teaching of physics through teacher-researcher interactions. *D Treagust, M Leggett, P Glasson & B Wilkinson* 112 75
Gender differences in science achievement in secondary coeducational schools. *D Young & B Fraser* 114 105
Some important areas of student assessment in science teaching. *G J Giddings & B J Fraser* 115 71
The influence of role-specific self-concept and sex-role identity on career choices in science among Australian secondary school students. *D Baker* 114 99
Why boys and girls do (or don't) choose science. *R Cameron* 114 111

SCIENTIST'S VIEWPOINT

Dr Helen Caldicott 112 86
Professor Peter Harris 113 86
Dr Diana Marmion Temple 114 113
Merrilyn McPherson 114 117
